

Skybury Coffee

Australian grown and roasted on the plantation, what is particularly special about Skybury's coffee is each roast is meticulously hand crafted by the master roaster, using a very special, antique Italian coffee roaster, imported to Australia over five decades ago.

Medium Roast

The medium roast is mild on the palate, has floral aromas and would ideally suit a newcomer to coffee. The natural sweetness suits milk-based coffees such as latte or cappuccino.

Dark Roast

This roast promotes the natural oils in the coffee. The dark roast is fantastic as an espresso, makes brilliant plunger and the ultimate long black. With great all round characteristics, its medium body leaves the perfect lingering taste in your mouth. This coffee has a very earthy aroma with caramel overtones.

House Roast

The perfect balance of the two. The strength and body of the dark roast with the great natural sweetness of the medium, this roast is two parts medium to one part dark mixture.

Ground to Order

All Skybury Coffee is packed as whole bean. However, coffee can be ground to your particular requirements. Grind options include commercial espresso, domestic espresso, stove top filter, plunger and peculator. Ask one of the friendly staff who will be happy to grind your coffee for you. You can even order Skybury Coffee online when you run out.

Ethical Farming

Today, Australia's oldest commercial coffee plantation is at its most ecologically innovative, with conservation, sustainability and ethical production embedded in the farm's DNA.

The MacLaughlin family have grown coffee and papaya on the plantation in Mareeba for more than three decades. Located adjacent to two world heritage areas, their goal is to ensure a limited environmental footprint with a positive impact on the wellbeing of the local community.

Visit the plantation today to learn more about the work in this area, along with the team's efforts to restore native forests, and the management of Skybury's natural wetlands, which provide critical habitat and food sources for wildlife and birds.

CAFE AND ROASTERY

Skybury Tropical Plantation

Skybury Cafe & Roastery champions its natural attributes – fantastic produce, a relaxed atmosphere and breathtaking views. A highlight of any trip to the produce rich Atherton Tablelands, the cafe is open Monday to Friday 9am to 4pm. It has a superb range of drink options, serving its single origin Arabica coffee, grown, picked and freshly roasted on the farm.

The menu is tasty and fresh with Sweet Red papaya featured in several dishes including crowd favourite, a papaya jam. The Skybury menu also has vegetarian and gluten free options and includes burgers, pizza, frittata and a choice of fruit and vegetable bowls. There is also a special menu just for the kids. The Cafe and Roastery is an authentic 'paddock to plate' experience.

Perched high on the Great Dividing Range, sit down on the all-weather verandah and take in the stunning views of the surrounding landscape. Before or after your meal, have a look around the building with its interpretive information, watch a series of short films in the cinema, browse through the gift shop, or sample Skybury's papaya jam, cold brew coffee and fresh produce from the farm.

Sweet Red Papaya

Skybury Tropical Plantation is world famous for the quality of its coffee and award winning Sweet Red papaya, and together they are a perfect match. Innovative farming has seen Skybury inter-plant the two crops together, increasing the supply of this sweet and aromatic variety of firm red-fleshed fruit, while growing flourishing, healthy, shade grown coffee plants. Papaya is amazingly versatile, not only does it taste great and is good for you, its health properties are also put to good use in beauty products. Why not browse the range available in the gift shop and take home something special?
