CROCODILES DAINTREE RIVER...one hour river cruises

Bruce Belcher's Daintree River Cruises offer a one-hour wild life cruise. We are enthusiastic, honest, exciting and informative. We are keen bird watchers and have a good eye for crocodiles and tree snakes, with crocodiles being spotted on 98% of trips, particularly in cooler months.

We operate from our home on the banks of the Daintree River in a secluded location from a private jetty in a wildlife botique facility. Come and relax in our garden room, listen to the surrounding wildlife and enjoy a complimentary Daintree Tea or coffee. Peruse our tropical souvenir collection. Meander through our lush tropical garden to our private jetty to board our vessel for a personal guided tour with Bruce's 31 years experience on the Daintree River.

MANGROVE JACK II

M.V. Mangrove Jack II was designed to be comfortable, quiet and to maximise observation.

The boat is covered and we have clear screens in the event of rain. The boat, being small and more personalised allows me to interact with guests. Therefore loud speakers are not always required.

The comfortable seats face forward for best viewing. They are padded and have back rests.

About Bruce

"I enjoy seeing the delight on people's faces as they see crocodiles and other animals in the wild for the first time, just as I did on my first encounters."

"I have travelled the world during my youth, but there is nowhere that suits me more than the Daintree River."

Hello, my name is Bruce Belcher and my family and I and my guides are celebrating 31 years as a tour guide on the Daintree River.

As a small family business we have a great lifestyle with our own private boutique facility on the riverbank, in a Conservation Park.

My involvement in tourism started from humble beginnings as a trainee tour guide, learning the knack of how to spot wildlife – so 40,000 trips later I have an eagle eye for spotting wildlife and I have trained Ray and Griffith, my son along the same path.

I offer you a one hour cruise observing wildlife, with an emphasis on crocodile spotting. Other aspects include tree-snakes, pythons and bird-life, natural history of the region and the mangrove eco-system. Binoculars are provided.

My obsession with the river comes from my childhood and growing up with the aborigines on Mornington Island, in the Gulf of Carpenteria, where I learned a lot about what we are presenting.

PROVIDING QUALITY TOURISM

All cruise times operate 7 DAYS PER WEEK EXCEPT Christmas day.
We might be closed at times during February for maintenance or weather conditions.

February cruises will operate twice a day on a low tide so please call and check tide conditions.

9.30am & 11.00am (if low tide) OR 2.30pm & 4.00pm (if low tide)
